

## 73V

### Description

Suspension lamp with braided metal coaxial cable and brushed nickel or white powder coated canopy. It is created as the result from blowing molten glass into a folded, heat-resistant ceramic fabric. The resulting shape has a formal and textural expression intuitively associated with fabric, which becomes permanent as it cools. A light source is positioned at the top of each pendant, accentuating the volumetric perception of the piece as well as the gradation of color. Pendants available in Clear, grey 1, purple 1, blue 1, opaque white 1, opaque green 1 and opaque blue 1.

73.1Vm requires a new build/suspended ceiling with remote mounted power supplies. Remote mounted power supplies recommended for ease of long term maintenance. Installation to be done by certified personnel to ensure code compliance. Each pendant comes standard with 118"1/8 of coaxial cable. Up-charge applies for lengths over 118"1/8. Cable length can be adjusted on site. White, black or brushed nickel canopy. Lamps and power supplies are included.

**Lamp:** 1W LED, 2700K, 100lm

**Materials:** Blown glass, braided metal coaxial cable, electrical components, steel canopy

**Power Supply:** Integral. Remote mounted for 73.1Vm.

Bocci recommends remote mounting power supplies for ease of long-term maintenance.

**Environment:** Indoor, dry location. IP30
