

Avant

Design: Gabriele e Oscar Buratti

Description

Avant is a family of containers made up of a cupboard, with legs, and a sideboard in two heights and with 3 or 4 doors.

The Avant sideboard, available with bronzed brass legs or feet, is characterized by a rigorous volume in wood with sophisticated details: the upper edge of the backrest and doors in solid wood dominates the top in tempered glass or black painted marble, creating a kind of tray.

The doors hide shelves made of tempered glass painted with black backs and, upon request, central drawers.

The project is completed with the detail of the essential bronzed brass legs and soft-closing hinges. Optional drawers are available. Made in Italy.

Finishes and materials

Structure: Wood

Top: Marble, Glass, or Wood

Feet: Bronzed brass.
