

Egao

Design: Toan Nguyen

Description

Seating family composed of stackable chair and small armchairs and counterstool.

The Egao stackable chair and small armchairs are characterized by a structure with legs in painted AISI 316 stainless steel tube. Weaving in moka synthetic or nautical ropes create a squared pattern that acts as seat and backrest.

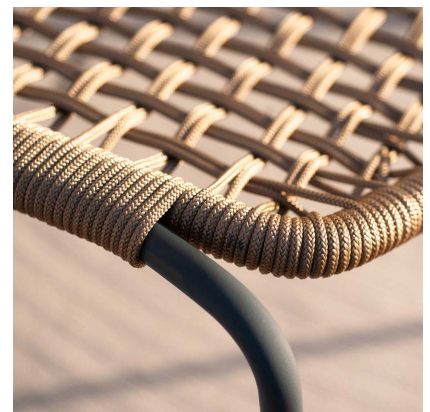

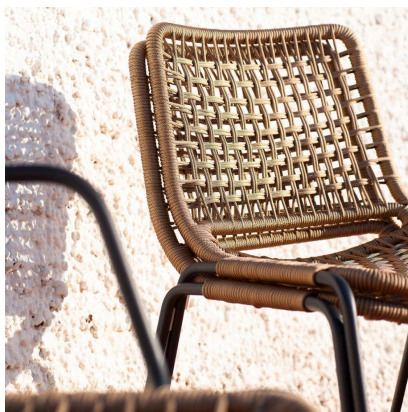

The small armchair is available in two versions: armrests with or without interweaving.

A family of passe-partout products suitable for any type of location, both domestic and contract. Made in Italy.

Finishes and materials

Frame: Metal.

Weaving: Rope
