

Doppler K

Design: Giuseppe Viganò

Description

The Doppler K Sideboard catches the eye on account of its notable scenographic strength, able to give character to any type of environment and interior design style.

This sideboard features a lacquered wooden structure, ceramic covered doors and a refined base in lacquered metal or metal finish. Appearing almost suspended on its linear metal base, the container in painted wood is unique thanks to the cladding of its ceramic doors with their asymmetrical openings. Made in Italy.
