

Florian

Design: Barovier&Toso

Description

Barovier&Toso's historic archives provide a wealth of inspiration, and it was through them that the Florian design, collection of wall lamps, was conceived. The lines of the Florian are so retro but at the same time so contemporary, accentuated by massive Venetian crystal lampshades created using the "rostrato" technique invented by Ercole Barovier, intensifying the sparkle of the lights and making this chandelier a unique piece of craftsmanship. Available in crystal with a choice of polished chrome, dark chrome or brushed bronze finish.

A luxury Italian Murano Wall Lamp, ideal for sophisticated Interior Design or Architectural projects. Made in Italy.

Finishes and materials

Murano Structure & Arms: Crystal.

Metal Structure: Polished chrome, Dark chrome or Fine brushed brass.
