

Sigma

Design: Gherardi Architetti

Description

A dresser characterized by the linearity of the elements, which stands out, however, in the special graphic design of the recessed handle, a detail that makes the drawer fronts dynamic.

Structure made of wood particles available in matt lacquer or wood veneer.

The handle can either match the front or contrast with it to enhance its presence and create interesting colour plays, available in matt or metallic lacquer.

The 6 drawer dresser is equipped with a bracket anti-overturning for wall fixing. Optional desk wing with a 2" thick wood particle board structure available in matt, glossy lacquer, or wood veneered.

It is installed on top of the Sigma dresser (4 drawers version only) and positioned at will width-wise. Made in Italy.
