

# Random

*Design: Neuland Industriedesign*

## *Description*

Bookcase with three dimensional variants and a distinctive shape. The two variants, named 2C and 3C, make Random flexible and adaptable to all spaces in a home and to different market demands. The elements can express unique style even if they are of modest size, perfect in small spaces or dedicated niches. Also, when combined with the Random 5C module, they allow the collection's modularity to create different configurations.

The bookcase is made of 1/4" thick medium density wood fibre boards with back in melamine-coated board (thickness 3/8").

Compartments in standard sizes. The shelves are fit into the backs through concealed dovetail slots. With adjustable feet to 5/8". For safety reasons, it is highly recommended to fix the unit to the wall. Please note: it is suggested not to fix the units horizontally. Possibility of large-sized configurations by flanking. The modules with 2 and 3 spans, can be used alone or combined with the 5C model to allow greater flexibility and improve the modularity of the entire collection. Made in Italy.
