

## Alix

*Design: Maurizio e Silvia Varsi*

### Description

Bookcase with its perimeter wooden frame protruding from the wall-mounted metal structure.

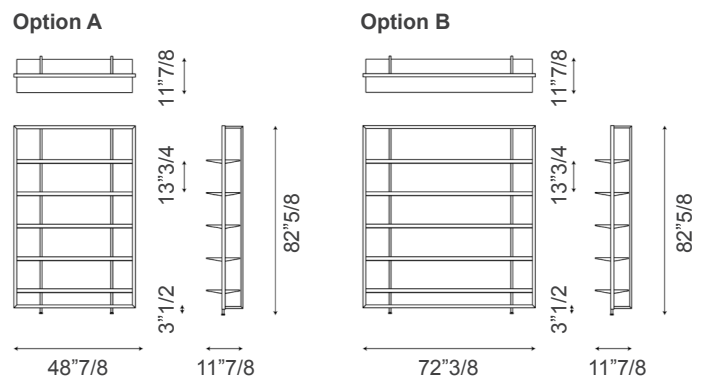

It consists of simple and linear shapes: the concept is strengthened by the use of aluminum shelves, a cold and tenacious material that makes the structure optically light, combined with the warmth of the wood, protagonist of this design. The shelves are finished matching the structure and come with a smooth surface.

Maximum capacity: 15 kgs per shelf.  
Made in Italy.

### Dimensions

**A)** 48"7/8W x 11"7/8D x 82"5/8H

**B)** 72"3/8W x 11"7/8D x 82"5/8H

**NOTE:** The bookcase must be fixed to the wall.
