Design: Giovanni Tommaso Garattoni

Description

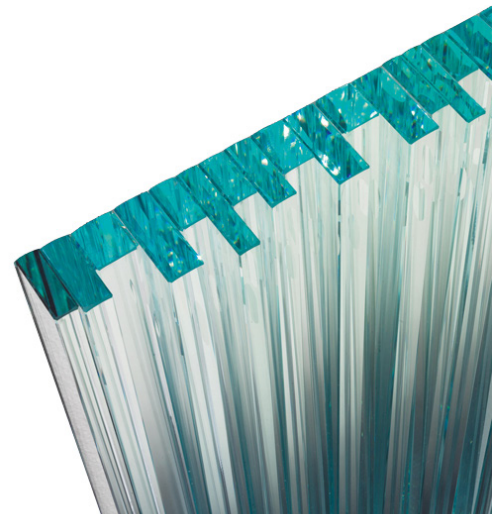

Modular wall mirror, made of glass strips of different thicknesses welded together on a mirror back. Every module consists of 22 extra clear glass elements processed separately. These elements are then placed “headfirst” side by side on the mirror, glued together and UV-welded. Light reflection and images are split up into the surroundings. Made in Italy.

Finishes & Materials

Structure: Extra clear glass strips.

Mirror: Mirror.
