

Butterfly

Design: Nucleo+

Description

Console with metal base offered in different finishes. The top is available in clear or extra clear glass, laid on the base. Wall anchorage is necessary.

The Butterfly collection is a sinuous architectural project that cannot go unnoticed. The steel base becomes the star of the modern living areas with a sculpture-like style and a reference to the elegance of nature. The glass top of this console, takes on an unprecedented shape with rounded sides, whose proportions arise from the harmonious design of the base. Made in Italy.

Technical information

Base in steel with epoxy powders varnished. Top in tempered glass, 1/2" th. Loose top.
