

Lancer

Design: Renato Guerra

Description

Fixed table that stands out for its metal base with a strong architectural value, enlivened by a punchy graphic sign. Four blades cut through the air and intersect each other, creating an energetic composition with an apparently irreproducible pattern. Each leg is designed with a T-section, which multiplies the opportunities for crossing and overlapping. The entire base is thus strengthened by a rhythmic chiaroscuro effect, in which the blind zones contrast with the metal portions struck by the light. The top is made of transparent glass, allowing you to appreciate the sculptural base in its entirety. Made in Italy.

Technical information:

Base in steel with epoxy powders varnished. Top in glass, 5/8 of thickness. Top laid on the base.
