

Aureo

Design: Matteo Nunziati

Description

Nightstand made of a single-block piece, partitioned by the handle which divides it in sections. The simple shape and details, like the ceramic top and metal handle, are offset by a modern design with traditional undertones conveyed by its minimalism and purity.

The Aureo collection is inspired by the mathematical / geometric concept of the Golden Ratio: a system on which the proportion of all spaces dedicated to the human life is based, with the intent of creating a balanced, yet functional standard.
Made in Italy.

Dimensions

20"7/8W x 18"7/8D x 21"5/8H
