

Bahia

Design: Mauro Lipparini

Description

Stool with seat and backrest padded in high density, shrink-resistant rubber and covered in fabric, eco-leather or leather. The cover is not removable. It features a base with 4 slender metal legs and feet in plastic with felt pad. Footrest matching the base, with stainless steel "scuff plate" profile.

The curved backrest allows a free support of the arms and generously wraps the back. This stool comes from the union of curved shapes and simple tubular metal elements, giving as result an extremely balanced aesthetic. Made in Italy.

Dimensions
