

Olos

Design: Mauro Lipparini

Description

Lounge chair that represents the continuous experimentation between aesthetics and function, between balance and self-promotion. The structure is made of curved veneered multilayer wood, featuring a sinuous design, and is supported by a four-spoke base with swivel center section, in matt painted metal.

The metal backrest, padded in cold-foamed polyurethane and polyester fiber, almost wraps the seat in an embrace. The seat is padded in shaped polyurethane foam with varying density and polyester fiber. The cover is available in fabric or leather. This lounge chair fits perfectly in both residential and contract spaces. Made in Italy.

Dimensions

29"1/8W x 29"1/8D x 29"1/8H

Seat height: 15"3/4
