

## Sleek

*Design: Mauro Lipparini*

### *Description*

Lounge chair with metal structure and seat padded in cold-foamed polyurethane.

Two options for the base:

- . Base with four circular shaped feet.
- . Four-spoke base with swivel center section.

Both options are available in matt painted metal. The non-removable cover is offered in fabric or leather.

The combined seat-backrest sits on a metal structure with an aesthetically light design. The shape of this lounge chair featuring discreet cuts and harmonious geometries, recalls the nostalgic spirit of Italian mid-century modernism.

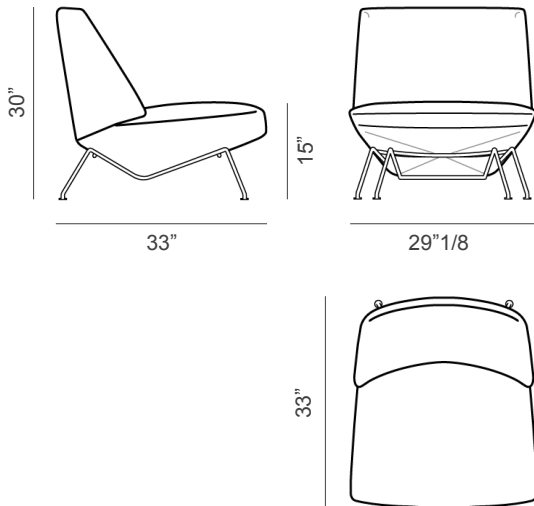

Made in Italy.
