

Neuilly

Design: Fabrice Berrux

Description

Ottoman with structure made of wood with elastic straps, lining made of velveteen bonded with polyester fibers. Seat padded with polyurethane foam in various densities, lining in velour coupled with polyester fibers.

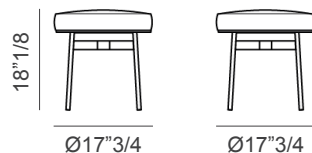

Base with shaped metal profile, painted. Fireproof cover offered in fabric, leather or eco-leather. Available in two different sizes, both characterized by the immediately recognizable slender tubular metal base which can be found in the other pieces of furniture of the Neuilly collection. Made in Italy.
