

Jordan

Description

The Jordan Lounge Chair challenges conventional ideas of luxury seating through a compact yet expressive silhouette. Its sculptural presence combines refined proportions with a strong sense of character, creating a distinctive interpretation of the contemporary lounge chair.

An enveloping upholstered shell defines the design, creating a welcoming relationship between form and comfort. The backrest is distinguished by precise stitching that becomes an integral part of the chair's visual identity, adding a refined and subtly glamorous detail to its clean silhouette.

Jordan balances softness and structure with an understated sense of sophistication. Its carefully considered proportions allow it to create a strong presence without overwhelming the surrounding space, making it a versatile piece for contemporary residential and hospitality interiors.

With its distinctive character, refined detailing, and sculptural approach to comfort, the Jordan Lounge Chair transforms a familiar typology into a sophisticated statement of contemporary Italian design.

Made in Italy.
