

Sculptural Cable 28

Description

Suspension lamp designed to be horizontal, meaning that the pendants don't hang directly below, but instead trail off across a space, around a corner or simply deviate from their gravitational directive.

As such, this fixture is designed to be hung from any number of optional swag points mounted elsewhere from the canopy.

28s are possible with infinite versatility in color compositions, sizes and shapes.

The 28 semi-rigid is a flexible suspension system enables pendants to be nestled in close-knit groups or loosely composed in a wider field, allowing each piece to be perceived individually.

Each pendant comes standard with a coaxial cable, adjustable up to 472"3/8.

Up-charge applies for lengths over 137"3/4.

Longest and shortest lengths are determined by client, Bocci fabricates all lengths between these measurements. Specified shortest and longest lengths are from the underside of the canopy to the underside of the pendant. There may be variance of $\pm 1/8$ " on specified shortest and longest lengths.

Pendant anchor kit included.
