

Sculptural Cable 28

Description

Suspension lamp designed to be horizontal, meaning that the pendants don't hang directly below, but instead trail off across a space, around a corner or simply deviate from their gravitational directive.

As such, this fixture is designed to be hung from any number of optional swag points mounted elsewhere from the canopy.

28s are possible with infinite versatility in color compositions, sizes and shapes.

The 28 semi-rigid is a flexible suspension system enables pendants to be nestled in close-knit groups or loosely composed in a wider field, allowing each piece to be perceived individually.

This fixture requires design drawings to determine the specific cable lengths. Please review the length measuring guide and send it to our Sales Department. We will provide drawings for approval, which are required before Bocci can begin production. Please contact us for any inquiries.

Length Measuring Guide

Please provide the following information:

1. Provide overall height of the room.
2. Determine maximum drop. Measure from the underside of the canopy (NOT away from floor).
3. Determine L x W install dimensions.
4. Provide a sketch of the ideal distribution of pendants relative to the canopy.
