

73V

Description

Suspension lamp with braided metal coaxial cable and brushed nickel or white powder coated canopy. It is created as the result from blowing molten glass into a folded, heat-resistant ceramic fabric. The resulting shape has a formal and textural expression intuitively associated with fabric, which becomes permanent as it cools. A light source is positioned at the top of each pendant, accentuating the volumetric perception of the piece as well as the gradation of color. Pendants available in Clear, grey 1, purple 1, blue 1, opaque white 1, opaque green 1 and opaque blue 1.

Each pendant comes standard with 118"1/8 of coaxial cable. Up-charge applies for lengths over 118"1/8. Cable length can be adjusted on site. White, black or brushed nickel canopy. Lamps and power supplies are included.

Lamp: 1W LED, 2700K, 100lm

Materials: Blown glass, braided metal coaxial cable, electrical components, steel canopy

Power Supply: Integral.

Bocci recommends remote mounting power supplies for ease of long-term maintenance.

Environment: Indoor, dry location. IP30
