

73

Description

73 results from blowing liquid glass into a folded and highly heat-resistant ceramic fabric vessel. The resulting shape has a formal and textural expression intuitively associated with fabric, which becomes permanent and rigid as it cools. A flat LED is positioned to fill the resulting volume with diffuse light, accentuating the volumetric perception of the piece.

Lamps and power supplies are included.

73.1m requires a new build/suspended ceiling with remote mounted power supplies.

Remote mounted power supplies recommended for ease of long term maintenance.

Installation to be done by certified personnel to ensure code compliance.

Each pendant comes standard with 118"1/8 of coaxial cable. Up-charge applies for lengths over 118"1/8. Cable length can be adjusted on site. White, black or brushed nickel canopy.

Pendants available in clear, grey 1, grey 2 or grey 3.
