

## De-Symetria

*Design: Luca Scacchetti*

### *Description*

The De-Symetria desk is available in several combinations.

- Top made with extra-clear glass, with or without saddle leather insert.
- 1 Leg made of melamine coated panel with edges covered in saddle leather and central part in veneered wood. On the leg there is a cross-shaped chromed steel element that acts as a support for the top to which it is fixed.
- 1 Return Cabinet with structure (top and lateral sides) in wood, with fronts (doors and drawers) in matching saddle leather as the leg. On the internal side there's a drawer unit with either 3 drawers or 1 drawer + 1 file. On the external side there are three doors. Drawer fronts and doors are in matching saddle leather.

The metallic parts are available in chromed steel only.

Made in Italy.
