

G-Code

Design: Dante O. Benini e Luca Gonzo

Description

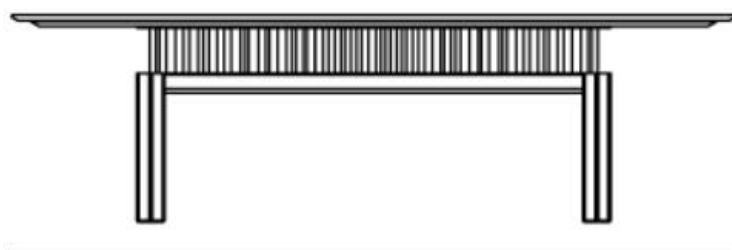

Table with a Canaletto walnut structure, available in the three finishes. The top, with edges bevelled at 30°, is available in marble and is joined to a titanium lacquered MDF under-top, both supported by a metal structure characterised by 92 cylinders in three different sizes and finishes. The legs are joined together by a pewter-finish metal plate that runs along the profile of the structure and are characterised by a special woodworking in the frontal part and a 90° Scarpiana woodworking in the vertical edges. The feet are height-adjustable and the adjustment mechanism, built into the frame, is not visible. Made in Italy

Finishes & Materials

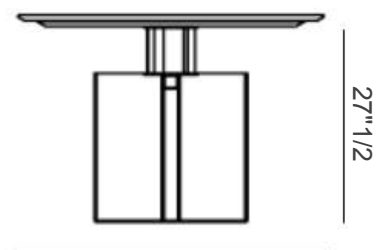

Structure & Legs: Wood
Top: Wood or Marble
