

Karphi

Design: Mauro Lipparini

Description

A series of modular sofas with multiple composition possibilities. The internal structure of the elements is made of multilayer wood and the padding is foam. The armrests and backrests, unlike the seat cushions, are upholstered with a quilted cover available in the versions: decorated with a "cordonetto" stitching, tone on tone or in contrast, available in the standard leather color references and Plus or plain. The cover is completely removable. The presence of open modules without backrest allows the integration of small table elements, also with a multilayer covered structure such as the sofa. Each element is equipped with 4 beech wood feet. Made in Italy
