

Raffaello

Design: Presotto Studio

Description

A lounge chair designed to complete the comfortable atmosphere of the home and in reception spaces, together with the sofa from the collection of the same name.

The retro design that characterises the armchair is expressed through a cockpit structure that maintains a uniform height around the perimeter and then expands internally into curved shapes on the back and sides. The structure of the armchair also accommodates the generous upholstery of the seat and, in the case of a rigid backrest, a foam cushion in the form of a band or pad is available.

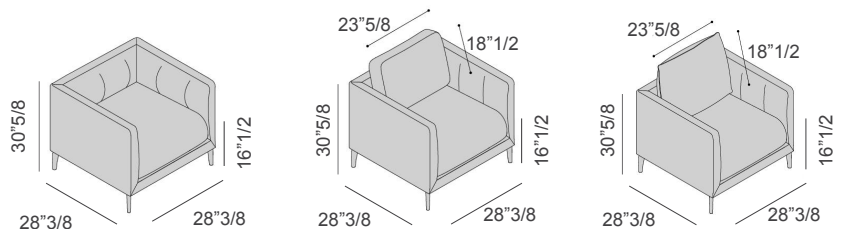

Made in Italy.

Dimensions

28"3/8W x 28"3/8D x 30"5/8H

Seat height: 16"1/2

Backrest cushion: 23"5/8W x 18"1/2H
