

## Aterea

*Design: Tonelli design studio*

### *Description*

Sideboard with internal structure in melamine with grey fabric effect. External coverings in champagne or Titanio backlacquered glass, extra-clear (polished effect) or frosted extra clear (matt effect). Swing doors with push-pull opening, available in numerous finishes: clear mirror, smoked or bronze mirror, or in glass T-Bands champagne or Titanio backlacquered, or in glass T-Bands clear mirror, smoked or bronze mirror, or in fused T-stripes smoked or bronze mirror. Feet in welded glass and two internal shelves in extra clear glass that can be positioned on three different heights. The top can be in the same finish of the external coverings, or in ceramic or marble. Optional LED COB lighting kit under the base with remote control for on/off switching and variation of light intensity.

The sideboard takes shape through the texture and colours of the fused glass that emphasize the depth and character of the glass, enhancing the tactile perception because of the light refractions typical of this material.
