

BOW

Design: Massimo Castagna

Description

The elegant and contemporary lines of the tops merge with the geometric volume of the base in fused glass, creating a perfect and original balance of shapes. The contrast of the top and base finishes generates an authentic and harmonic textural encounter. The attentive care for the connecting metallic elements of the base make them unique and refined details.

A process of fusion at high temperature creates a material that shares the dialogue between craftsmanship and modern research. T-Squares and T-Stripes are profoundly embossed textures of the glass slabs, that adopt a dense and sinuous visual appearance.
