

Isola

Design: Mario & Giulia Mazzer

Description

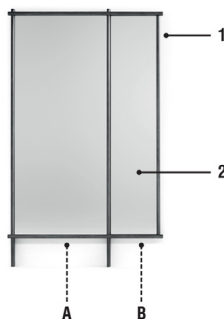

Mirror surrounded and supported by solid wood profiles with an oval section and a moveable flag wing. The value of the asymmetric frame in wood lies in its lack of balance: the mobile part is in fact what makes the mirror more functional, making this complement ideal for the sleeping area, but also for other rooms of the house such as entrances, corridors or walk-in closets. Made in Italy.

Notes:

. The product features a fixed mirror A and a movable mirror B.

. The B portion opens towards the inside of the mirror.

. The mirror is placed on the floor and can also be fixed to the wall.

Dimensions

43"W x 3"1/8D x 71"5/8H
