

## Keshi

*Design: Bonaldo Lab*

### *Description*

Suspension lamp made of a blown glass sphere, similar to a valuable pearl, that hangs sinuously from its stem. Available with a metal structure, combined with the delicate brightness diffused by the transparent glass sphere.

Offered with 1 or 3 pendants, the last one available in 2 versions: Casual, that features a round rosette and the lights can be mounted at variable heights or Linear that features a rectangular rosette with rounded corners and the lights are fixed at the same height and distance. Made in Italy.

#### **Light bulb:**
