

## Pepita

*Design: Studio Team design*

### Description

Pepita is a collection of lamps inspired by the shape of gold nuggets. As its name suggests, it calls to mind a multifaceted piece of precious metal, which changes and transforms depending on the perspective. In the same way, it is capable of transforming the space thanks to its shape which is deliberately irregular, and thanks to the finish of the glass lampshade which characterizes the personality of the lamp. This table lamp is available with silk glass lampshade which conveys a sense of elegance of times past.

Made in Italy.
