

Rabat

Description

Rug inspired by abstractionist artistic currents, in which geometry and variable compositions are the distinctive features. An almost interrupted central profile, made of darker Tencel, vertically divides the carpet into two non-identical parts.

Made in 70% Wool and 30% Tencel*. Available in two sizes, both offered in two different colors. Made in Italy.

** TENCEL is a fibre obtained from the cellulose of eucalyptus and beech, natural raw materials that give the fabric elasticity and a silk-like lustre, as well as being environmentally friendly and completely recyclable.*

Dimensions

- A) 118"1/8W x 78"3/4D
- B) 157"1/2W x 118"1/8D
