

Tangeri

Description

Rug with a design where the lines are replicated parallels with a slight curve that looks like a step and which creates a three-dimensional effect.

The motif is geometric, but at the same time gives a sensation of movement and volume, almost as if it were a bas-relief marking out the surface.

Made in 70% Wool and 30% Tencel*. Available in two sizes. Made in Italy.

* TENCEL is a fibre obtained from the cellulose of eucalyptus and beech, natural raw materials that give the fabric elasticity and a silk-like lustre, as well as being environmentally friendly and completely recyclable.

Dimensions

- A) 118"1/8W x 78"3/4D
- B) 157"1/2W x 118"1/8D
