

Pleasure

Design: Daniele Lago

Description

A modern mirror evoking the contoured edges of pebbles, metals and precious stones smoothed by water. Pleasure comes in different sizes and irregular shapes, and was created along with the collection of occasional tables going by the same name. It matches entrance consoles and units and storage sideboards in the living room, as well as elegant dressers in the bedroom.

The Pleasure mirror boasts soft lines, bringing magnetic energy to any space.

It furnishes and decorates with exquisitely harmonious forms.

The mirror can be turned by 360°.

Made in Italy
