

Sienna

Description

The Sienna Chair embodies a refined balance between architectural precision and understated elegance. Its distinctive geometric silhouette is softened by a sense of sartorial sophistication, creating a harmonious expression of contemporary Italian design.

Defined by its characteristic crescent-shaped backrest, Sienna creates a welcoming and sculptural presence while maintaining clean, carefully proportioned lines. Every element contributes to a cohesive silhouette that combines visual strength with an elegant sense of lightness.

Available in versions with or without armrests, the Sienna Chair adapts naturally to different interior settings while preserving the distinctive identity of the collection. Its timeless character makes it equally suited to sophisticated dining spaces, residential interiors, and refined hospitality environments.

Sienna transforms a functional seating piece into a distinctive design statement, where comfort, pure form, and contemporary elegance come together with effortless sophistication.

Made in Italy.
