

Twibe

Design: Daniele Lo Scalzo Moscheri

Description

The armchair from the Twibe collection redefines the concept of a simple, elegant bergère, albeit diversified in the care of the craftsmanship of the finishes, for an ingenious design stratagem: the overlapping of the seat and backrest volumes. Two enveloping elements in appearance simply placed side by side, but which in reality are integrated with each other, capable of guaranteeing comfort and privacy without however excluding the possibility of having an informal conversation, a business appointment, a cocktail with friends.
