

Air

Design: Daniele Lago

Description

Extremely simple, elegant forms, high-end materials and a spectacular floating effect make the Air coffee table something special. Standing effortlessly on solid, extra-clear tempered glass supports, the piece appears to be floating mid-air, creating a real sense of levity in the living room.

Create a coffee table tailored to your space and needs, customizing the top size and finish – for furniture with personality that fits with your environment.

The tempered glass legs, secured in place using a stable coupling mechanism, are highly resistant to impact, heat and changes in temperature, making for a resistant, long-lasting product.

Made in Italy.

Finishes & Materials

Top: Polished or Matt glass and Polished or Matt XGlass.

Support: Tempered glass.
