

Air

Design: Daniele Lago

Dimensions

The Air extendable table is designed for sharing special moments together, allowing you to add up to four extra chairs around the table. The Wildwood oak top is extremely resistant to wear and liquids, and is supported by elegant tempered glass legs. Functionality and design meet in a perfect balance to provide the ideal furnishing solution for an elegant kitchen, dining room or living room.

The extension leaves slide out easily like a drawer. The top (3"1/8 thick) and side extensions are attached using magnets. A quick and easy way to welcome more guests into your home.

The tempered glass legs (3/8" thick) are highly resistant to impact, heat and changes in temperature. The supports have clear rubber feet which are fixed to the table top with an adjustable mechanism, guaranteeing maximum stability.

Made in Italy.

Finishes & Materials

Top: Wildwood.

Support: Tempered Glass.
