

Air

Design: Daniele Lago

Description

Refined table tops make for a compact design, with impact. Available in different shapes and customizable in a wide range of materials from wood and glass to marble and metal XGlass, the Air Slim designer dining table, with a 3/8" thick top, seems to float mid-air thanks to its slender yet ultra-strong legs.

The Air Slim table brings a real light feel to the space, thanks to a thick top and solid tempered-glass supports.

Tempered glass is heat-treated to ensure it is highly resistant to impact and changes in temperature. It also makes it fully waterproof and resistant to corrosive substances.

Made in Italy.

Finishes & Materials

Top: Wildwood.

Support: Tempered Glass.
