

Lean

Design: Daniele Lago

Dimensions

Unique in its elegant artisanal craftsmanship, featuring hundred-year-old Wildwood curved to perfection, the Lean wooden glass coffee table appears poised in mid-air, thanks to the barely there tempered glass support. The wafer-thin, resistant wood top creates captivating textural interest that is soft and malleable on the eye, infusing fresh, contemporary style.

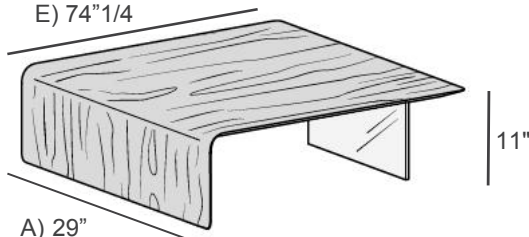

Lightweight solid oak with a 3D grain adds a flavor of natural heritage, creating an elegant textural contrast with the almost invisible tempered glass support.

Sophisticated technology has been used to curve the imposing hundred-year-old Wildwood to create a sense of continuity and flow. The result is visually striking and pleasantly tactile. Made in Italy.
