

Loto

Design: Franco Lago

Description

Loto is an extendable, square table that can add up to four extra places at the table, designed for the kitchen or dining room. The table extensions open out like flower petals and hospitality blooms, welcoming more guests for socializing. It is easy and intuitive to open the table: with a simple gesture, the extensions open up with extreme ease and without any particular physical effort.

The geometry of the square is used to create an innovative opening: the four triangular extensions are hidden under the square top – by opening them the square transforms into a larger square.

It is possible to combine different materials, selecting a material for the extension that is different from the table top. Even the colors offer great potential for personalization.

Made in Italy.

Finishes and Materials

Central Element (Closed Table): Wildwood or Lacquered.

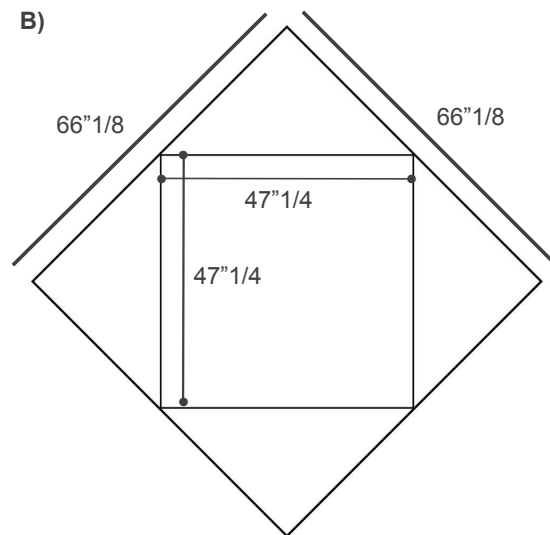

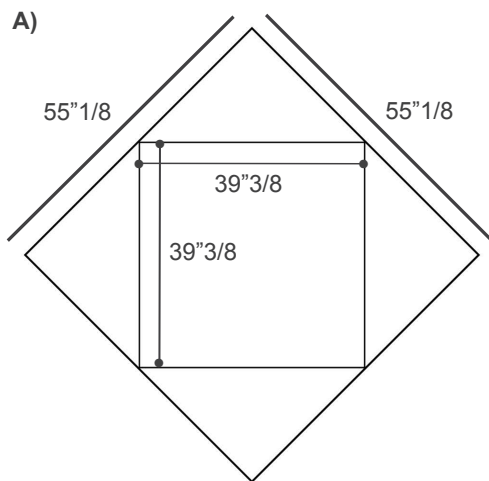

Extensions: Wildwood or Lacquered.

Legs: Powder Coated Steel.

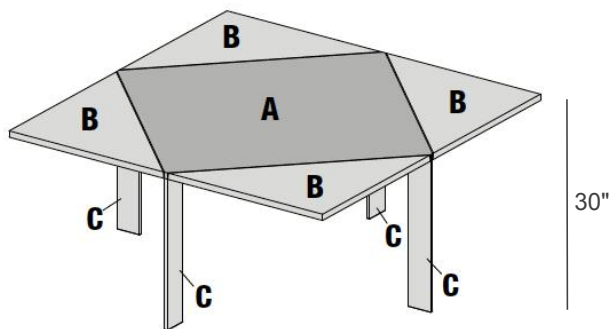

Loto

Dimensions

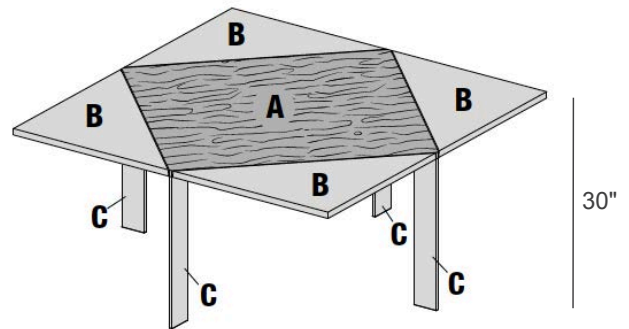

- A)** Closed: 39"3/8W x 39"3/8D x 30"H
