

Meet

Design: Daniele Lago

Description

This modern table with bold, geometric shapes plays with the equilibrium between the light top and symmetrical base. Two sculptural, symmetrical elements reach towards each other and just manage to touch at one single point, creating a magical state of balance in which all the parts come together to support one another.

The top can be customized in the full range of finishes: from glass colors to textured Wildwood and XGlass marble, metal, wood and fabric.

The top has a modern, elegant line and comes in a shaped, rectangular or elliptical model, in three different sizes. Teamed with the solid, full form of the base, it creates the perfect contrast.

The base comes in special metallic colors.

Made in Italy.
