

UpGlass

Design: Daniele Lago

Dimensions

The UpGlass coffee table has a durable glass top you can decorate with endless lacquered colors and luxurious XGlass textures. The outstanding build of this occasional table can be seen in the 45-degree cut joining the top and supports, emphasizing the sleek design of this piece made entirely of glass.

This 45-degree join makes for a clean, minimalist design, free from any excess of form.

The two see-through legs create a contrast with the tangible top, adding unexpected character and a light feel to the living room space.

Refined workmanship ensures the table is resistant and has innovative construction quality.

Made in Italy.
