

Borgo

Design: Antonino Sciortino

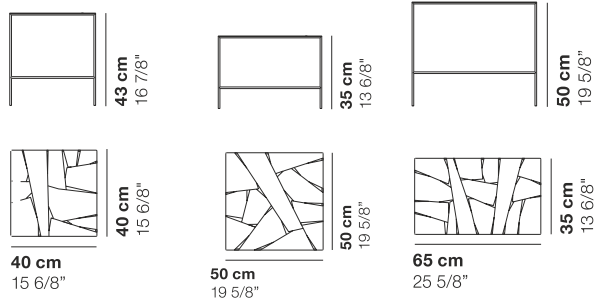

Description

Borgo coffee table is made of sheet steel featuring cuts at irregular intervals that are interconnected and call to mind the narrow streets of a picturesque Sicilian town. The inspiration came from the Cretto di Burri: a landscape artwork that looks like a series of cracks in the ground when viewed from above. The coffee table has a structure made from round steel bars and a rectangular shape. It comes in three different sizes. The colours range from pastel hues to special bronze, brass and copper finishes. Made in Italy.
