

Effetto 71

Design: Adriano Design

Description

Teckell® Effetto 71 is crafted from the finest glass and natural materials for professional-level playing and unprecedented style. This table tennis further transforms the sport with its low iron tempered glass table top. Far from fragile, the transparent material is rock solid and the ball bounces smoothly for a fast, fluid game. The solid American walnut legs are shaped to represent the ball's trajectory inverted and harken back to the lines often seen in 1950s and '60s Italian design. Included accessories: Four paddles and Game balls, Nets made of Alcantara (one in a light version and one in a dark version, both provided with the table). Made in Italy.

Dimensions

107"7/8W x 54"D x 30"1/8H (without the net on)
