

Air

Design: Daniele Lago

Description

The Air system has expanded to include a modern sideboard that plays on the contrast between solids and voids, inverting the order of factors: the piece seems to float in air, supported by transparent tempered glass sheets to create a surprising effect of suspension.

Available Wildwood or XGlass top: The innovative XGlass technology combines the elegance of glass with the magic of elements such as marble, metal, wood and fabrics, affording mesmerizing textured effects. Also, the balance between the suspended Wildwood top and the glass volumes of the sideboard creates a modern solution for the dining or living room.

Optional LED light on the back is available.
Made in Italy.

Finishes & Materials

Top: Polished and Matt XGlass or Wildwood.

Fronts: Lacquered, Polished and Matt Glass or XGlass.

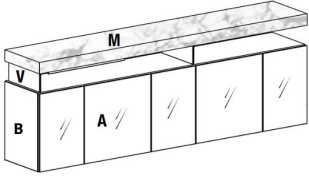

Structure: Lacquered.

Supports: Tempered Glass.
