

Air Soft

Design: Daniele Lago

Description

Soft, supple forms combine with the sophisticated modular build of the Air sectional. This is a highly developed product. Made from extremely elastic and long-lasting materials and with a layer of selected, certified goose down, it is ultra-comfy and inviting.

The aluminum frame technology and patented coupling mechanisms for the seats and backrests allow you to create infinite configurations in just a few simple steps, giving you the freedom to build your own composition.

The supports are available in steel, giving an ethereal, innovative stamp to any space that is home to the Air Soft sectional.

Optional back, decorative and lumbar support cushions are available.

Made in Italy.

Finishes & Materials

Cover: Fabric (Cat. B or C) and Leather.

Legs: Powder Coated Steel.

Please note: Composition "A" is not available in Leather.

Air Soft
