

Huggy

Design: Brit Leissler

Description

Huggy is a lounge chair perfect for welcoming unexpected guests. A mattress wrapped into a cone shape and inserted into a small cylindrical base to form a lounge chair with soft armrests. Slipping off the base, the mattress automatically unrolls, becoming a comfortable emergency bed. Huggy is two products in one. You can also turn the base over to create a practical bedside table.

The Patchwork fabric is crafted with artisanal care: each piece is unique, made using recycled materials that are sewn by hand, one by one.

Made in Italy.
