

Materia

Design: Daniele Lago

Description

The Materia cupboard has a pure, linear design marked out by 1/8" of glass: extremely resistant, it creates a crisp surface finish that brings the unit to life. Whether standing on extremely resistant tempered-glass legs or on elegant metal supports, this piece is infinitely customizable.

The practical and functional push-to-pull opening with a slight pressure of the hand allows the elegant and essential design of the monolith to be maintained, without any cumbersome handles.

Materia cupboards can be wall mounted.

It provides versatile customization options, offering a single-color version, or a two-color version—available only when the structure is in Aqua Glass or XGlass—that allows the sides and fronts to feature a different finish from the top.

Made in Italy.
