

Materia

Design: Daniele Lago

Description

The Materia sideboard has a pure, linear design marked out by 1/8" of glass: extremely resistant, it creates a crisp surface finish that brings the unit to life.

Choose from XGlass marble, metal, wood or fabric finishes, which have a continuous grain or pattern to bring out the original natural properties of these materials. Glass is LAGO's signature material, offering noble qualities, ultra-resistant properties and pure forms. It reflects the light in a stunning visual display guaranteed to blow you away. The practical and functional push-to-pull opening with a slight pressure of the hand allows the elegant and essential design of the monolith to be maintained, without any cumbersome handles.

It provides versatile customization options, offering a single-color version, or a two-color version—available only when the structure is in Aqua Glass or XGlass—that allows the sides and fronts to feature a different finish from the top.

Available with or without legs.

Made in Italy
