

# Morgana

*Design: Daniele Lago*

## *Description*

Morgana is a sculptural chest-of-drawers and quintessence of movement. Generous drawers stacked one on top of the other rotate with total freedom of movement thanks to an internal joint. The compositions are enlivened by a magical dynamism, in a harmonious overlapping of functionality, irreverence and elegance.

All of the compositions can be customized drawing on an infinite choice of color combinations. You can create your own personal design, adapting the piece to your space and specific needs. Depending on the selected composition and number of drawers, Morgana can be a bedside table or chest-of-drawers and is suited to the bedroom, living room and bath. The Morgana drawer unit is a statement piece that's surprisingly practical. As a freestanding centerpiece, it steals the show.

Optional wheels to make it easy to move from one room to another.

Made in Italy.
